MANILA (AP) — General Antonio  
Arroyo, president of the  
Philippine television network  
GMA, said Thursday that  
opponents of his administration  
were plotting a coup and  
stealing the election. He  
said the network would

## CHR move hailed, jeered

By Thomas A. Bruneau

THE COMMISSION ON HUMAN RIGHTS (CHR) has been hailed and jeered for its move to impose a moratorium on violent protests. It also asked the government to enforce its policies on protesters.

The move was hailed by some human rights activists as a step towards peace and stability. They said that the CHR's move was a sign of its commitment to human rights and its role as a watchdog of the government.

However, some protesters and human rights activists jeered the move. They said that the CHR's move was a ploy to silence the protesters and to prevent them from expressing their grievances. They said that the CHR's move was a violation of the protesters' right to peaceful assembly and expression.

The CHR's move was also criticized by some government officials. They said that the CHR's move was a challenge to the government's authority and its policies. They said that the CHR's move was a violation of the government's right to maintain law and order.

The study will be completed by March 2000. For more information, contact the lead researcher, Dr. David Williams, at [dawilliams@u.washington.edu](mailto:dawilliams@u.washington.edu). Williams is an epidemiologist currently at the University of Washington, where he is working on several projects, including the study of the epidemiology of HIV/AIDS.

the 1990s, the number of people who have been infected with HIV has increased significantly. In 1990, there were about 1 million people living with HIV in the United States. By 2000, that number had risen to about 4 million. And in 2008, it was estimated that there were over 12 million people living with HIV in the United States. This increase is due to a number of factors, including the widespread use of intravenous drugs, the use of contaminated needles, and the use of blood products that were not properly screened for HIV. In addition, the lack of widespread use of condoms and the lack of widespread use of antiretroviral drugs have also contributed to the increase in the number of people living with HIV. The increase in the number of people living with HIV has led to a significant increase in the number of people who have died from AIDS-related complications. In 1990, there were about 10,000 deaths from AIDS-related complications in the United States. By 2000, that number had risen to about 40,000. And in 2008, it was estimated that there were over 100,000 deaths from AIDS-related complications in the United States. # NOBEL PEACE PRIZE ElBaradei: Shy, dogged crusader

CAIRO, Nov. 1 (AP) — Egyptian nuclear expert Mohamed ElBaradei, who won the Nobel Peace Prize on Monday, is a shy, dogged crusader for nuclear disarmament, according to a report by the Associated Press.

ElBaradei, who is 54 years old, was born in a poor family in a village near the Egyptian coast. He studied at the American University in Washington, D.C., and then at the University of Oxford in England.

He worked for the International Atomic Energy Agency (IAEA) in Vienna for 15 years, where he became a senior advisor to the director. He was also a member of the IAEA's Board of Governors.

ElBaradei is known for his peaceful approach to nuclear disarmament. He has been a vocal critic of the use of nuclear weapons and has worked to promote nuclear energy as a clean and safe source of power.

He has also been a strong advocate for human rights and democracy in Egypt. He has been a member of the Egyptian Bar Association and has worked to promote the rule of law.

# Dog testicles, penguin poop study win Ig Nobels

BOSTON, Nov. 1 (AP) — A study of dog testicles and penguin poop won Ig Nobel prizes on Monday, awarded to scientists who study the natural world in a humorous way.

The Ig Nobel prizes are awarded annually to scientists who have conducted research that is "both amusing and enlightening." The prizes are named after the Ig Nobel, a fictional character who is a Nobel Prize winner in a humorous way.

The study of dog testicles was conducted by a team of scientists from the University of California, Berkeley. The study found that the size of a dog's testicles is related to its body size and its age.

# Threat on NY subway deemed credible

NEW YORK (AP) — A threat to blow up the New York City subway system was deemed credible by police and transit officials today.

The threat, which came from a letter mailed to the transit authority, was taken seriously because it was signed "John Doe," a name used by a known bomber in the 1960s.

Police said they were looking for anyone who might have mailed the letter, which was found in a mailbox at a transit station.

The letter, which was dated Oct. 1, threatened to blow up the subway system on Oct. 10.

## Pinoy Big Brotherhood

Whether it's a golden fishbowl

...a PBB Google search will  
...113,000 results, with hits  
...at the show appearing on var-

...her" is one of those shows  
...either love or hate. It's that  
...of impact—and de-

bure—that sleeper hits are made  
...in.

## Big Lola vs Big Brother

Speaking of debates, the MTR-  
...CB has urged "Pinoy Big Brother"  
...to rethink its concept, saying "con-  
...servative sectors find [the pro-  
...gram] less acceptable." Censors  
...chief Mariessa Laguardia was refer-  
...ing to a Sept. 19 episode that  
...showed a "dancing scene between  
...Chz and Sam, gyrating dances in  
...skimpy bikini and double enten-  
...dre." Really, that sounded like "Big  
...Brother Lite" compared to what's  
...going on elsewhere. And aren't  
...bikinis supposed to be skimpy?  
...Just a thought.

Anyway, since I'm in a philo-  
...sophically charged mood now, I'd  
...like to move the discussion on by  
...saying that morality like language,  
...is not a fixed line. With the way  
...things are now, it's more appropri-  
...ate to see it as a moving target.

With that in mind, we shouldn't  
...treat a show like "Pinoy Big Broth-  
...er" as a babysitter for kids or a re-  
...placement for interaction among  
...family members. That would be a  
...cop out. Neither should we take it  
...as a sign that our country's morals  
...are rapidly going down the toilet.  
...That would be self-righteous. Like  
...is or not, as a society of responsible  
...couch commandos, we should go  
...back to the root of this whole real-  
...ity TV business and see "Pinoy Big  
...Brother" as life through a lens, one  
...that offers piercing insights into  
...our own reality.

Perhaps old school peeps, those  
...who are quick to say that this is not  
...our culture, are merely scared to  
...acknowledge the changes that are  
...taking place today. Since one's re-  
...actions to the show reveal more  
...about themselves and their per-  
...sonal biases than they do about  
...the show itself, maybe they're just  
...afraid to look in the mirror and fi-  
...nally face the truth.

Special thanks to director Laima Dycal, Ligitte Tin, and the entire team behind Pinoy Big Brother for giving Super! an exclusive (and extremely surreal) tour inside the PBB house. We promise to keep the show's secrets! Catch PBB every day at 10 p.m. at ABS-CBN.
